

Amendments to the Claims:

This listing of claims replaces all previous version or listing of the claims:

1. (currently amended) A barbecue device, comprising:
a tray supporting combustible material including at least ~~one~~ first and second
refractory ~~member~~ members adapted to store heat; and ~~a catch~~ at least one catching device
disposed ~~adjacent~~ between said refractory ~~member~~ members, preventing said refractory
members from contacting one another;
a grill disposed above said tray and being connected thereto by a lifting member, said
lifting member including a bar slidably received in an outer cylinder,
whereby actuation of said bar with respect to said outer cylinder adjusts the height of
said grill with respect to said tray.
2. (previously presented) A barbecue device according to claim 1, wherein
a gear engages said bar; and
said gear being connected to a lever so that rotation of said lever actuates said gear to
move said bar when adjusting the height of said grill with respect to said tray.
3. (original) A barbecue device according to claim 1, wherein
a plurality of a refractory members are disposed in said tray with spaces located
between said refractory members allowing air to flow between said refractory members.
4. (original) A barbecue device according to claim 1, wherein
said tray includes an astray having a handle, and adjustable leg members.

5. (original) A barbecue device according to claim 1, wherein
said grill is horizontally fit between a longitudinal support in angular guides disposed
substantially perpendicularly to said support.

6. (currently amended) A barbecue device, comprising
a tray supporting combustible material and including ~~at least one~~ first and second heat
source means for retaining heat of the combustible material and a ~~spacing~~ means for spacing
disposed ~~adjacent~~ between said first and second heat source means, said means for spacing
preventing said first and second heat source means from contacting one another; and
a grill disposed above said tray and being connected thereto by an adjustment means
for adjusting the height of grill with respect to said tray.

7. (currently amended) A barbecue device according to claim 6, wherein
said each of said first and second heat ~~retaining~~ source means is a brick.

8. (currently amended) A barbecue device according to claim 6, wherein
~~said~~ each of said first and second heat ~~retaining~~ source means is a plurality of
bricks.

9. (canceled).

10. (currently amended) A barbecue device according to claim [[9]] 6, wherein said first and second heat source means includes a plurality of refractory members are disposed in a plurality of spaced rows; and said ~~each~~ is means for spacing being disposed between two of said rows.

11. (canceled).

12. (currently amended) A barbecue device according to claim [[11]] 6, wherein said ~~spacing~~ means for spacing is at least one ~~each~~ catching device.
